

# 2021 Annual Report

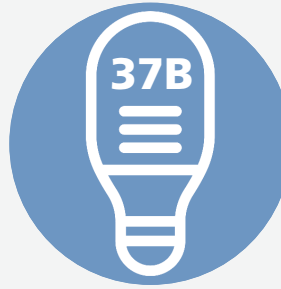

## Highlights & Accomplishments

**Hosted 34 events with over 1,600 attendees**

**Connected with nearly 6,000 people at 424 forums**

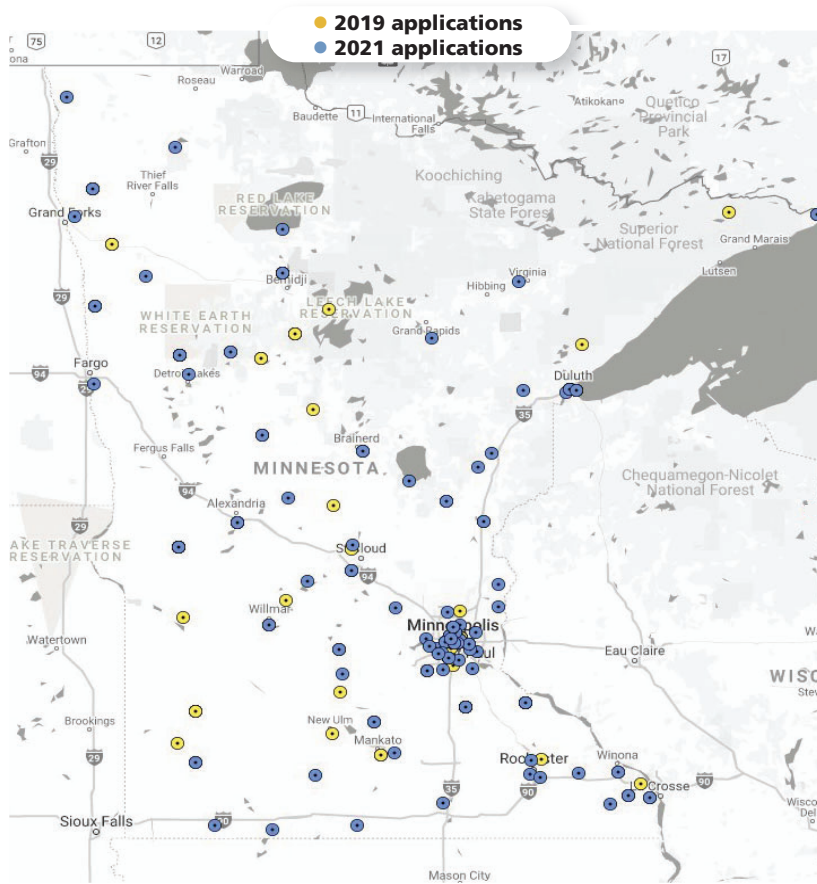

**Offset 37 billion BTUs (same as 1 million LED bulbs)**

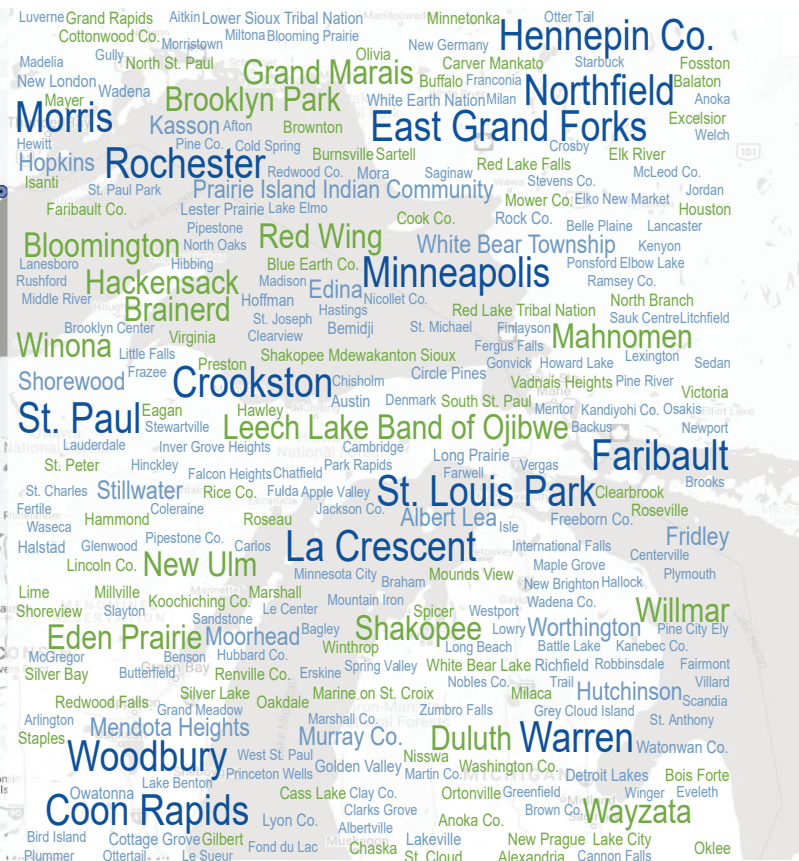

**Published over 150 clean energy stories**

### Doubled Seed Grant Demand

### Served 278 Minnesota Communities

# Highlights by Audience

## Governmental Units

- **Empowering jurisdictions through connections and engagement:** 20+ in Community Energy Network; 130+ GreenStep Cities with tools & guides
- **Preparing schools to harness solar:** 22 districts; Roseville Public School's 296 kW solar RFP; curriculum tools & stories
- **Advancing local projects:** EV charging stations in 9 cities; EVs for 6 fleets; City of Morris & Hutchinson Utilities solar RFPs

## Utilities

- **Program implementation:** 16 business blitzes with Otter Tail Power and Minnesota Power; manufactured home energy efficiency with 7 utilities
- **Convening for innovation:** 2 collaborative utility research projects with East River Power Cooperative and Great River Energy
- **Advancing EV programming and adoption:** Muni EV cohort spurred publicly available EV chargers; peer learning; Roseau EV ride & drive

## Small Businesses

- **Expanding reach:** Latinx-owned businesses in Austin, St. Paul, Willmar, & Worthington; seed grant to certify NE MN electricians to install solar
- **Assisting with funding options:** St. Paul Port Authority & Rural MN Energy Board PACE; Minneapolis Green Cost Share program

## Agriculture

- **Expanding reach:** farm energy events in Osakis & Staples; efficiency, renewables, & funding technical assistance
- **Advancing agriculture-energy synergies:** renewable energy siting event; Murray County strategic solar siting; wind-to-green-ammonia study to enable local production

## Underserved Communities

- **Supporting home energy efficiency & Energy Assistance Program:** Home Energy Guides in English, Spanish, & Somali; community-based outreach
- **Piloting strategies for manufactured homes:** 13 parks serving 800+ homes; how-to videos for do-it-yourself repairs in English & Spanish
- **Advancing access to solar:** community solar resources and project to explore new models; Solar for Vouchers pilot program

# Cross-Cutting Efforts

## Workforce: youth engagement

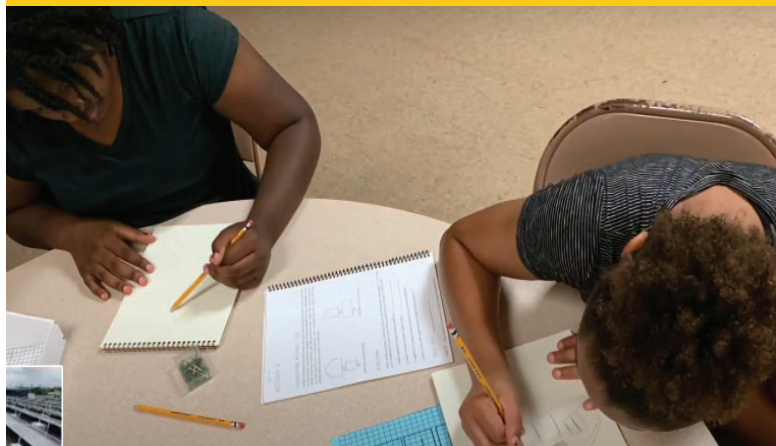

Photo: Participants in Camp SEE, a Metro CERT Seed Grant project.

## Beneficial electrification: ASHP stories

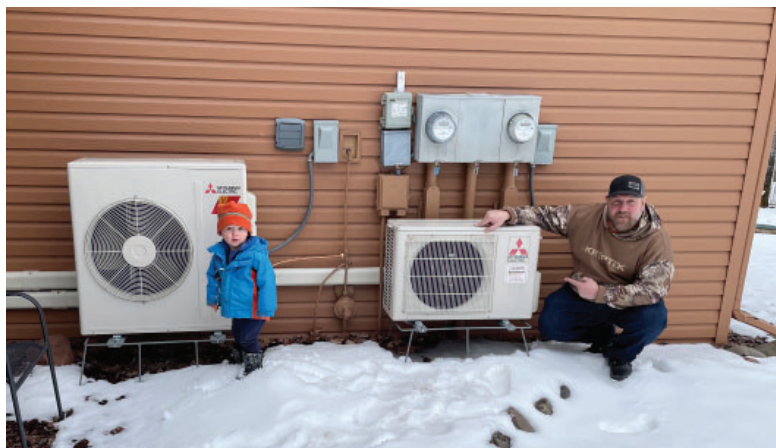

Photo: Cold-Climate ASHPs in Saginaw, MN

## Storage options: sparking discussions

Photo: Red Lake Nation's Government Center, an energy producing & energy storage unit.
